

## Day 5 – Testing and Backend Refinement – Furniro

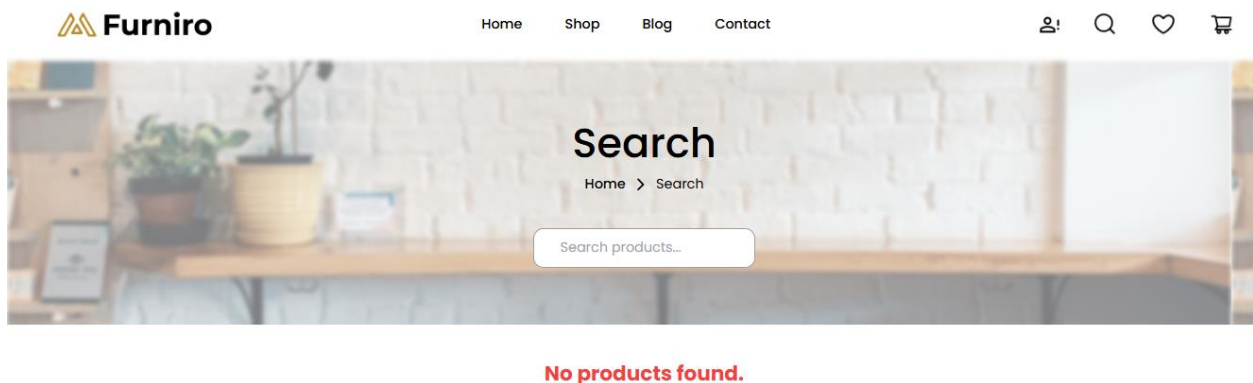

- **Product Listing Page:** "The Product Listing page gracefully handles network errors and empty search results, displaying informative messages to the user and providing a seamless experience."

- **Product Details Page:** "The Product Details page incorporates robust error handling for scenarios like missing product data, image loading failures, and invalid product IDs, ensuring a consistent and user-friendly experience."

- **Search State:** "The Search component utilizes debouncing and handles potential API errors during data fetching, providing a smooth and responsive search experience with informative error messages."

- **Cart:** "The Cart component handles edge cases like empty carts, invalid product IDs, and network errors during checkout, providing clear error messages and fallback states to guide the user."
